The problem

Unclear career direction

A goal needs a manageable first step.

Scattered learning resources

Useful courses need context and a schedule.

Hard-to-compare opportunities

Relevance, sources and requirements matter.

Skills that are hard to present

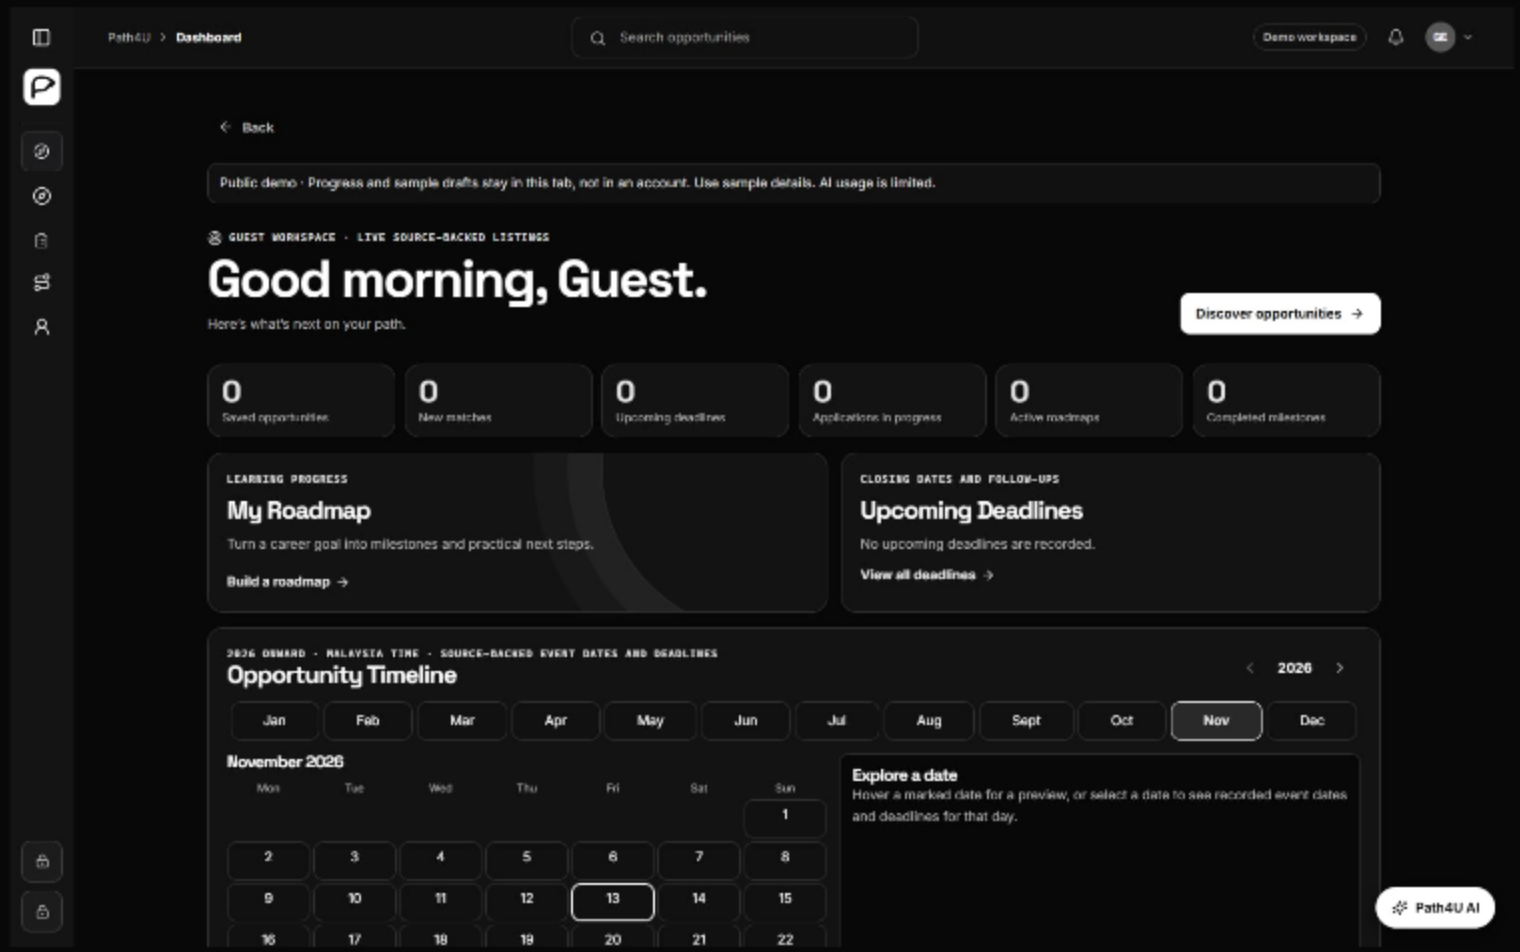

Applications need clear evidence of experience.

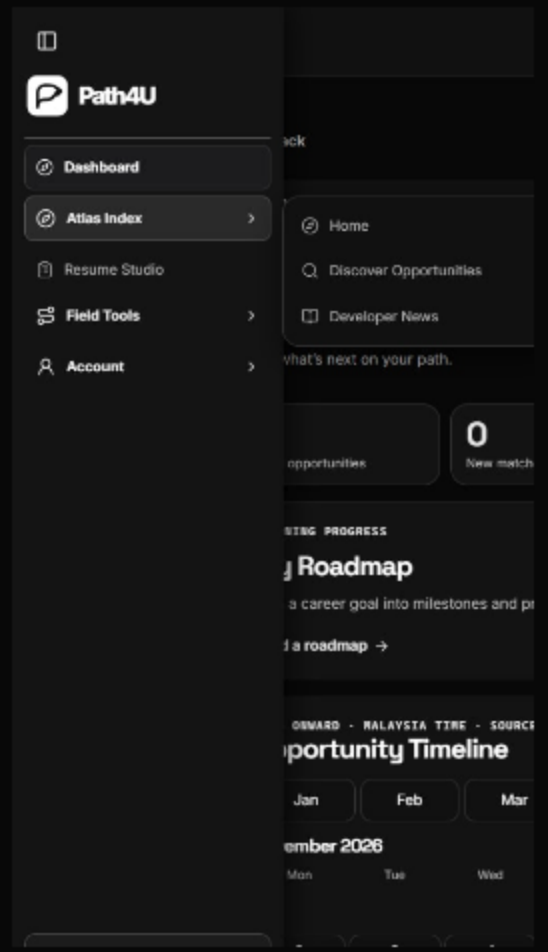

Our solution

One platform to discover opportunities, build skills, plan careers and prepare for employment.

Platform overview

Guest dashboard and hover, keyboard or touch navigation

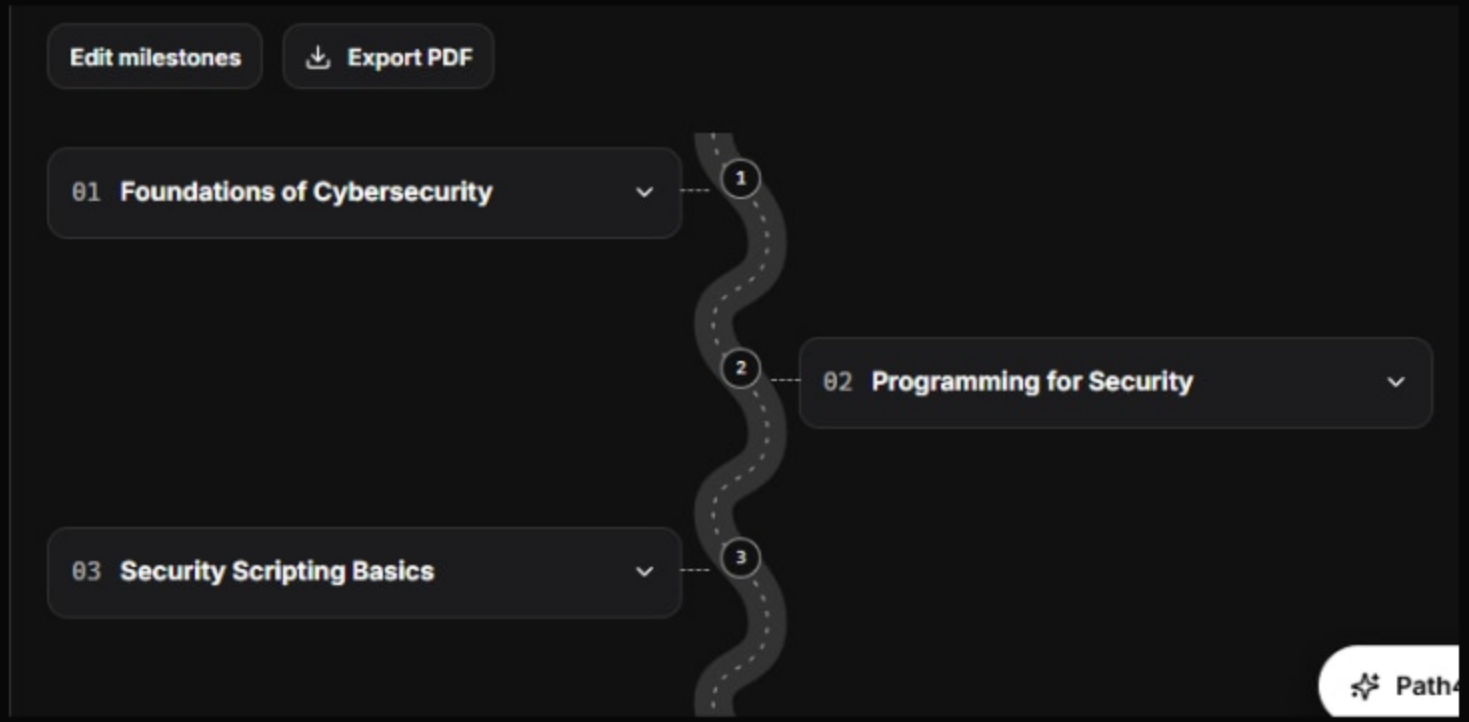

Personalized AI roadmaps

Goal, level and study time

Milestones with projects and learning resources

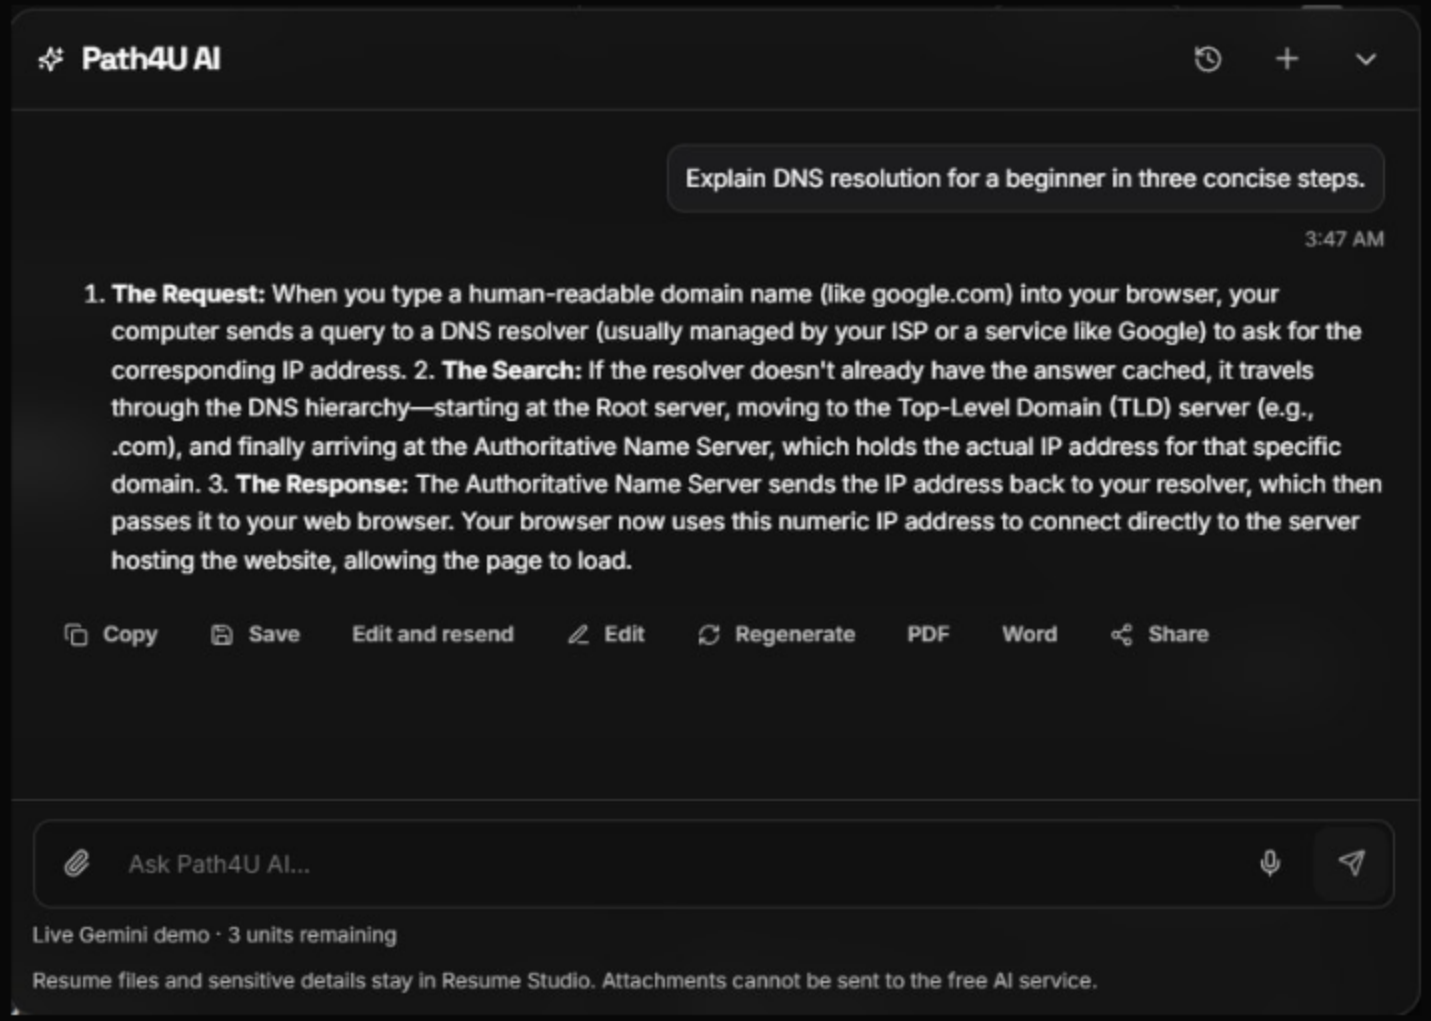

Explicit save and progress tracking

Saved flowchart view
Editable mind-map branches

Live AI improvements shown from the tested protected Preview

Path4U AI assistant

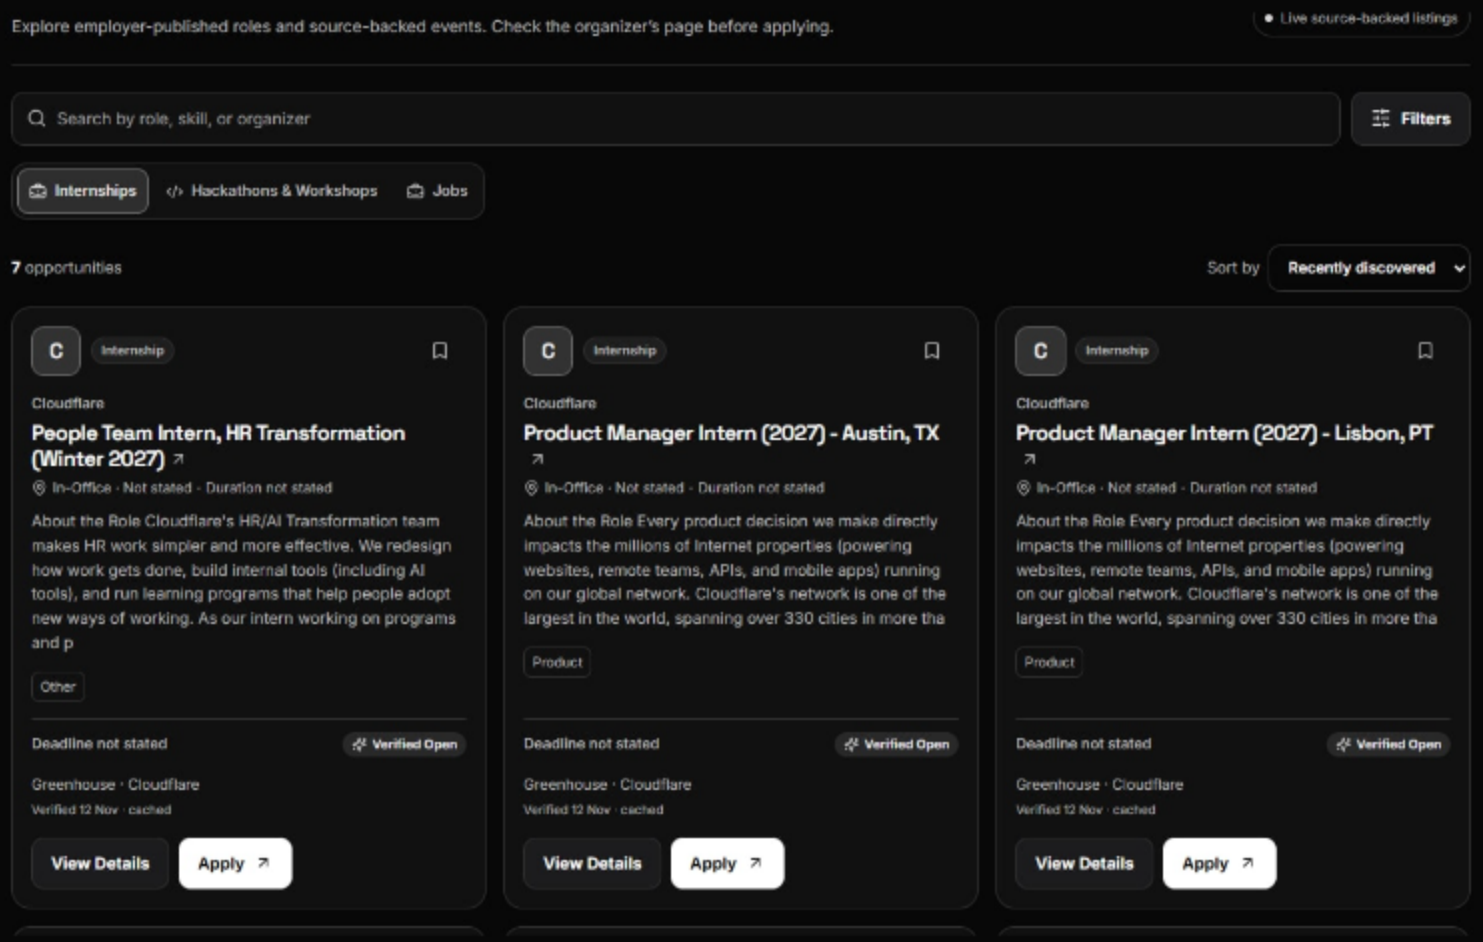

Live Gemini Preview capture. Paid web research remains disabled.

Technology explanations

Career and study-plan help

Original-provider course links

Discover opportunities

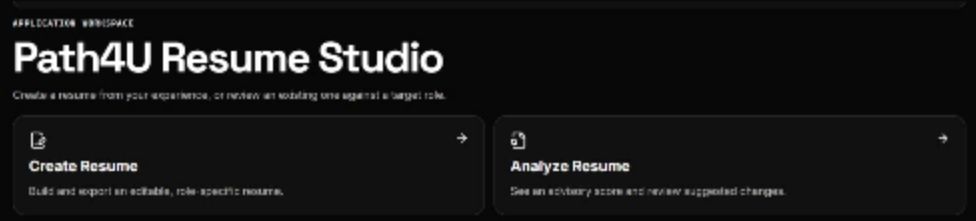

Internships
Hackathons & workshops
Jobs

Location and skill filters
Original application links
Source and freshness labels

Unknown deadlines stay unknown. Confirm availability at the source.

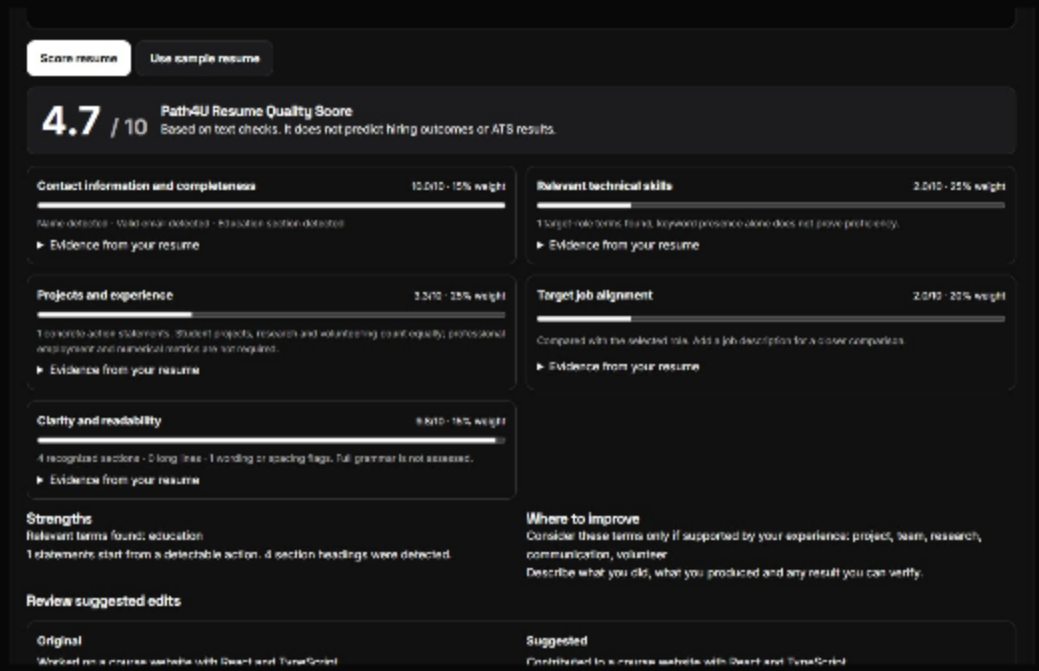

Resume Studio & Rater

Build with validation

Professional formatting and editable exports

Review an explained quality rubric

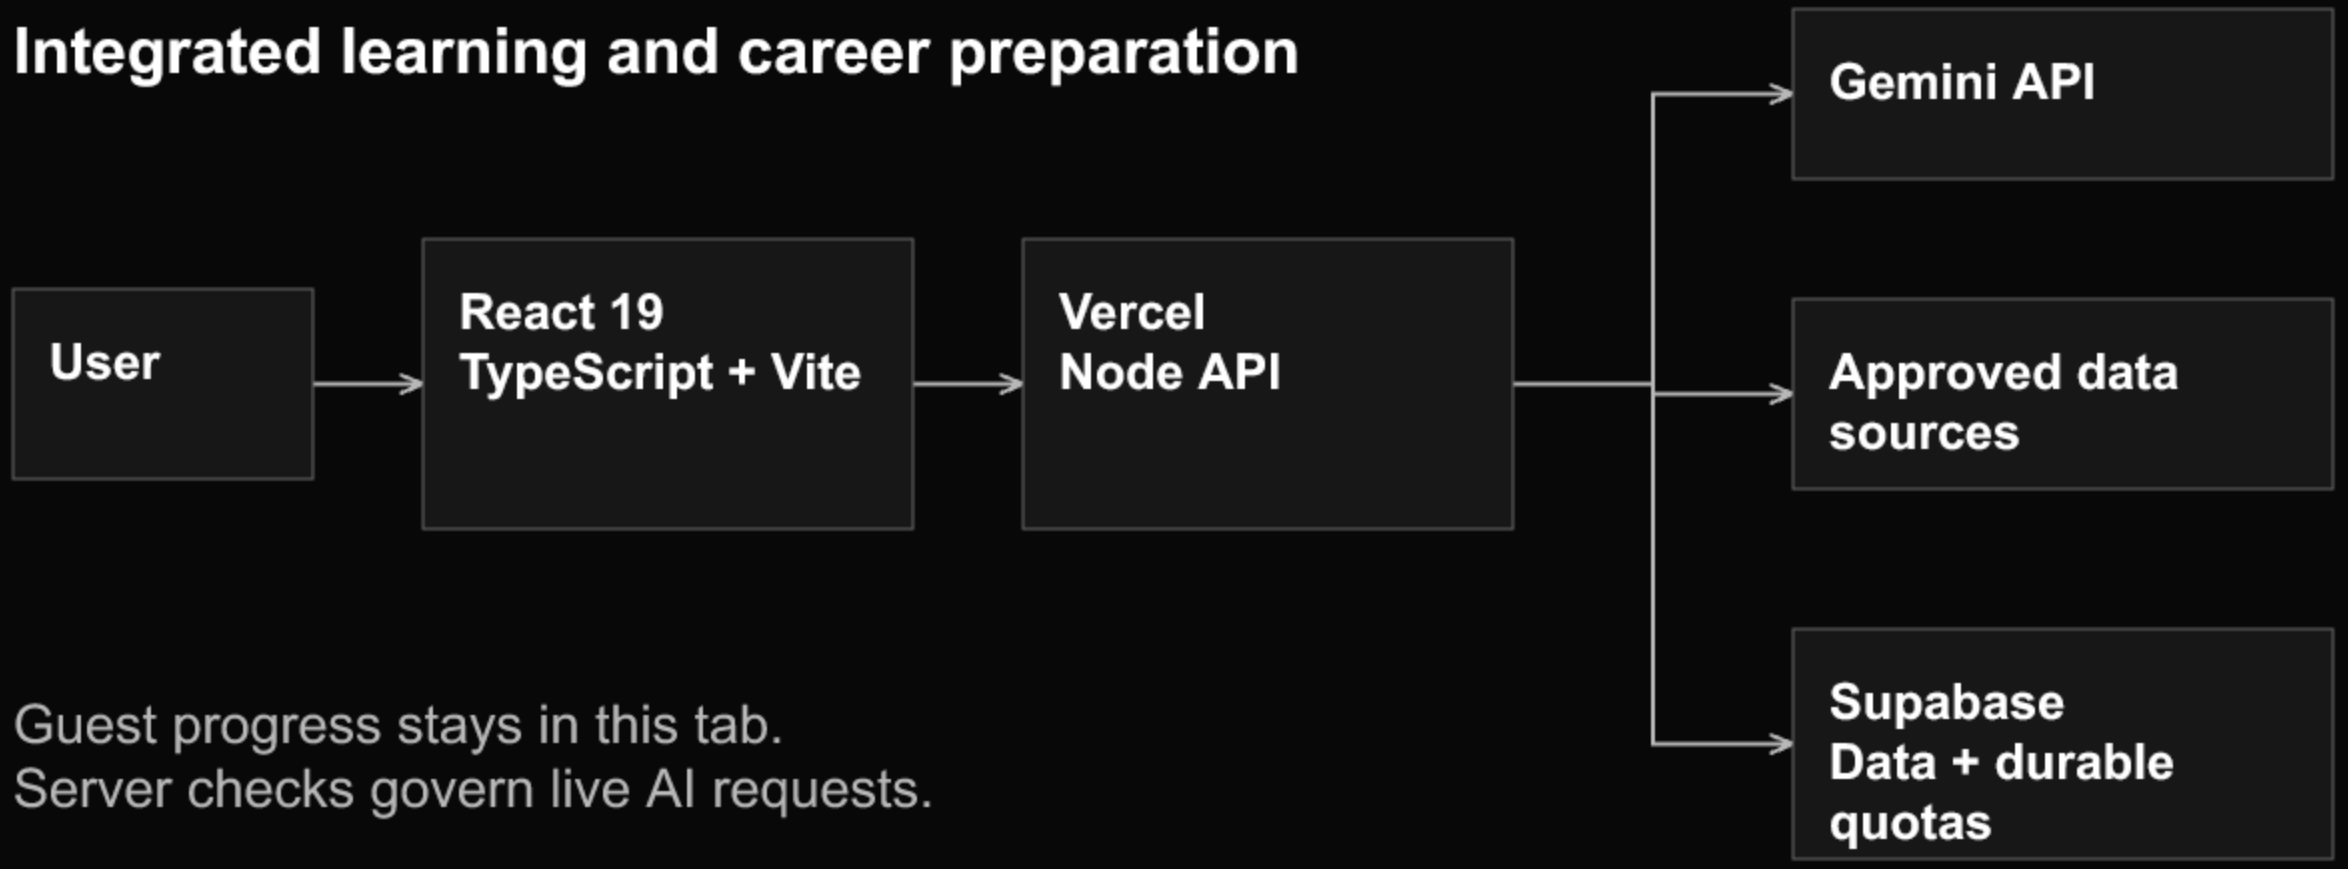

Actionable suggestions from observable text

Fictional sample data. Local quality evaluation does not predict hiring outcomes.

Technology & innovation

Integrated learning and career preparation

Guest progress stays in this tab.
Server checks govern live AI requests.

Public account actions remain Coming Soon

Impact & live demo

Your journey starts with a direction.

Students, graduates and early-career professionals

Now: discovery, learning plans and resume tools
Next: verified account access and approved integrations
